

Global Children's/Youth Day

This is a special day in March when thousands of children and youth from around the world church engage in acts of service in their local communities. Children's Ministries leaders across the globe on the various levels of the church will organize service projects to involve the children and young people. Some churches collaborate with their local youth to reach out in acts of kindness and service together, while other children's leaders choose to organize the children by themselves to do specific community projects.

By actively involved in compassion ministry and service, children are given the opportunity to spread the love of God to their friends and neighbors, thus contributing to the proclamation of the everlasting gospel.

Get Your Kids Involved! It's **Global Children's Day!** Join children and youth all around the world to make a difference!
